

# Veberod Gem Gallery Class Notes

## Intro to Copper Clay

With this clay at such affordable prices, how could we not be excited! Especially since it can be torch fired. The copper clay works much like the silver - but it has it's own quircks. Come on in and give it a try! (B)

### Supplies Required:

50gm Art Clay Copper: 480190

Approx Supplies Cost: \$20

### Tools Required:

Please Note: Art Clay World recommends maintaining separate tool sets for silver and copper clay to avoid cross contamination of your clays.

Approximate Cost for Basic Tools: \$50

Additional Tools: \$20

**A note on cost of supplies** - We prefer not offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already. If this is your first class, you are welcome to use the shop's tools so you can discover how enjoyable it can be! New students will need to share the shop tools between them. **It is important to remember to always bring your tools from home!** Also, please mark them so that they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us.
