

# Veberod Gem Gallery Class Notes

## Heavy Silver Bezel Ring

Learn to make this hot new ring style. First make a hammered shank and heavy bezel, then cut a seat in the bezel using setting burs and set a faceted stone using hammer and punches. This class requires the use of a dual fuel torch. (I)

### Supplies Required:

Sterling 4x1 or 5x2 Rectangular Wire: 480020, 480021  
Round lens shaped stone from Veberod  
Approx Tools & Supplies Cost: \$200

### Tools Recommended:

Oxy-propane Torch: 314048  
Round Bezel Mandrel: 343061  
Ball Peen Hammer: 337114, 337118

### A note on cost of supplies -

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already. If this is your first class, you are welcome to use the shop's tools so you can discover how enjoyable it can be! New students will need to share the shop tools between them. **It is important to remember to always bring your tools from home!** Also, please mark them so that they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us.

## List of Basic Tools and Supplies for Silversmithing Classes
